

LADDER HANGER

Safe and effective tool when working from fixed ladders.

Everybody wants efficiency and safety – also in difficult working positions. The Ladder Hanger can quickly and easily be attached to the ladder and can carry up to 230 kg.

The Ladder Hanger weighs only 4.1 kg, making it a very light tool for carrying and lifting

Can be used for working tasks inside wind turbine towers equipped with fixed ladders. The construction of the Ladder Hanger is very simple, making it easy to use and very safe for the user. Two simple steps and the Ladder Hanger is locked on to the ladder - ready to use.

The Ladder Hanger can be used in several ways. By mounting an ActSafe Power Ascender on the Ladder Hanger, it can be used for hoisting spare parts or tools up in the wind turbine tower. Other types of equipment can also be fixed to the Ladder Hanger. It will be safe and functional in all situations.
